About Sea Turtle Camp:

Sea Turtle Camp was created to immerse youth in the field of marine biology and empower them to be proactive and take ownership of their environment; we develop focused, responsible, independent individuals who know how to have fun while being stewards of the ocean. While we can't solve all the world's problems, we know that one person can make a difference, and a camp full of eager knowledge-hungry teens can make a huge difference.

One of our goals is to share our passion for life and teach young adults how to mold that into a selfless, hard working, team of individuals that can recognize problems and work towards solving them. Through our grass roots approach, we strive to show youth a wide variety of possibilities at a time in their life when they have many potential roads to follow. In so doing they will learn about the rewards of selfless giving in their community, gain exposure to other cultures, and experience different career paths.
